

WaveRider

l a u n d r y c a r d

WaveRider–LaundryCard is designed exclusively for properties that require the highest level of flexibility for their residents.

Some properties need the **convenience** and **modernity** of credit card payments, right at the laundry machine.

Some properties need the **simplicity** and **flexibility** of a traditional stored value system.

Now they can have both, at the same time.

By adding the new WavePoint LaundryCard revalue station, any standard WaveRider (credit card) property can also accept our new laundry card for payment.

Residents that wish to use their credit cards to pay, can continue to do so. Residents that would rather pay with a simple stored value card (which can be revalued with cash or credit, debit, or EBT cards) can do so with ease.

All of the benefits and features of a WaveRider System (such as WaveVision and online monitoring and reporting) are still available to everyone, regardless of which payment method they choose.

It's the best of both worlds.

KEY FEATURES

- Credit/debit card at laundry machine
- LaundryCard payments at laundry machine
- Card readers can support Mobile Payment App
- Residents can verify machine availability in advance
- Cardholders receive text message when laundry is done
- Simple installation and setup
- 100% wireless system
- Simplified cash collection (no more coins)
- Real time machine status for operator and cardholder
- Full suite of operator reports (real time & historical)
- Secure – PCI compliant
- Machine alerts for operator
- End-to-end support – No middleman

- 1 Residents that want a LaundryCard obtain it from property management or purchase from the WavePoint.
- 2 Residents add value to the LaundryCard at the WavePoint with cash, credit, debit or EBT.
- 3 Residents use their LaundryCard to pay for their cycles. Residents that wish to use their credit & debit cards are free to do so.
- 4 Since the system is 100% wireless and online, auditing and monitoring are simple and on-demand.
